### II Application Guidelines for Entrance Examination (Time of Enrollment: October 2017/ April 2018)

#### 1 Eligibility for Application

Those to whom any of the following items is applicable, or is expected to be applicable by March 2018 (or in case of October 2017 enrollment, by September 2017).

- (1) Have a master's or professional degree.
- (2) Have been awarded a degree equivalent to a master's degree or professional degree abroad.
- (3) Have taken a correspondence course of education provided by a foreign school in Japan and have been awarded a degree equivalent to a master's or professional degree.
- (4) Have completed a program in Japan provided by an educational institution that is positioned as having graduate programs under the relevant foreign education system and which is designated separately by the Japanese Minister of Education, Culture, Sports, Science and Technology, and who have been awarded a degree equivalent to a master's or professional degree.
- (5) Have completed the program at United Nations University and have been awarded a degree equivalent to a master's degree.
- (6) Have completed a curriculum at a foreign school, an educational institution that has received the designation under item (4), or the United Nations University, who have passed an examination or a screening equivalent to those stipulated in Article 16-2 of Standards for the Establishment of Graduate Schools, and who are deemed to have academic ability equivalent to or greater than that of a master's degree holder.
- (7) Are designated by the Minister of Education, Culture, Sports, Science and Technology.
- (8) Are deemed to have academic ability equal to or greater than that of a master's or professional degree holder by the Graduate School through an individual admission eligibility screening and who have reached the age of 24 years.

Note 1: Applicants who are expected to complete a master’s program or master’s course at Okayama University in September 2017/ March 2018 must apply following “**III Guidelines for Screening for Advancement**” (described on p. 7).

Note 2: Those who “(A)re designated by the Minister of Education, Culture, Sports, Science and Technology” specified in item (7) above refers to applicants who meet any of the following conditions, and who have the experience of engaging in research in a university or research institution for more than 2 years after graduation or completion of university or other institution, with research achievements, such as published books, academic papers, academic lectures, academic reports, or patents, which are considered to be equivalent to or higher than a master’s thesis. (It is necessary to apply Application Eligibility Screening. See “**2 Application Eligibility Screening**”.)

1) Those who graduated from a university.

2) Those who have completed 16 years of school education in a foreign country or who have completed 16 years of school education in Japan by taking a correspondence course of education provided by a foreign school.

Note 3: Those who “(A)re deemed to have academic ability equal to or greater than that of a master’s or professional degree holder by the Graduate School through an individual admission eligibility screening” specified in the item above refers to applicants who have passed an academic proficiency test (written and oral examinations) and an interview that the Graduate Schools provides as the screening of the eligibility for application after document screening. (It is necessary to apply Application Eligibility Screening. See “**2 Application Eligibility Screening**”.) However, when an applicant’s ability can be confirmed based on the documents submitted, the applicant will be exempted from the written examination.

The date, method, and other information related to the academic ability test and the interview will be assigned to cases individually.

## 2 Application Eligibility Screening

For those applicants who fall under **item (7) or (8)** specified in the previously described “**1 Eligibility for Application**”, we conduct application eligibility screenings before application. The applicants must submit the following documents to the Graduate School Section, Academic Affairs Division, Graduate School of Environmental and Life Science during each period.

### Acceptance Period of Documents for Application Eligibility Screening

Entrance Examination for October 2017 Enrollment	
Entrance Examination for April 2018 Enrollment (First Submission Period)	June 21, 2017 to June 22, 2017

#### **IV Purpose of Human Resources Development in Each Division**

[Environmental Science]

Adopting “the construction of sustainable society” as the common academic philosophy, this division is trying to solve issues related to the following: creation and management of urban and regional space in harmony with the environment; biodiversity and ecosystem conservation; food problems; epidemiologic and mathematical scientific aspects of medical care; the construction of recycling-based society and low carbon society; and the creation of materials with low environmental load and process. Through this education and research conducted in widely diverse fields associated with environmental science, we train researchers and high-quality professionals who have the ability to achieve the construction of sustainable society independently and the rich expertise to support it, and who can play an active role internationally by exercising leadership.

[Agricultural and Life Science]

This division carries out widely diverse education and research activities, from basic fields that clarify life phenomena using methods such as ecology, physiology, cell biology, gene science, biochemistry, organic chemistry, analytical chemistry, to the fields of application, including the development of production technology and environmental conservation technology using animals, plants, and microorganisms, the development of functional food materials and drugs, and the maintenance of the diversity of organisms. Through these educational and research activities, we train personnel who can achieve independent resolution of issues confronting society, who have rich expert knowledge to support society, and who possess a high level of research ability and rich creativity capable of playing active roles internationally by exercising leadership.
