Teaching Assistant and Research Assistant Salary System

Excellent students at a graduate school are employed as TA(master's course, doctor's course) and RA (doctor's course) and can receive the salary for auxiliary works of education and research.

Japanese Language Courses for International Students

A variety of Japanese language classes are offered for international students.

In addition to the seven different levels of courses, classes that focus on specific language skills or specific topics are offered as well. In order to enroll into a Japanese class, you must apply for Specially Registered Student. Also, those who have studied Japanese before, must take the Japanese Placement Test to determine your Japanese level.

Please confirm the procedures described in the following website and complete the necessary procedures by the application deadline.

Dormitory for International Students & Researchers

Okayama University has four dormitories dedicated to international students. One dormitory is for foreign researchers and international students. International students can live in this residence for six months from their entrance to the university. When there are too many applicants for available places, the tenants are selected by lottery.
